

CASAS/TV411 Crosswalk

CASAS is an adult literacy assessment system approved and validated by the U.S. Department of Education. Eighteen years of research has made CASAS a reliable resource for ABE, GED, ESOL, Math and LD programs. Through information derived from the adult education field, CASAS recommends valuable classroom materials that help establish measurable goals, document learner outcomes and integrate literacy and occupational skills instruction.

Beginning March of 2002, **CASAS Instructional Materials Guide (IMG)** and the **CASAS Instructional Materials Quick Search (QS)** will include TV411 correlations. However, for your convenience we are providing you with an *“EASY TO NAVIGATE”* version right here at TV411.org. See how CASAS and TV411 can work together to assist you in planning and developing your curriculum.
