# Introduction

## About the TABE

This publication is a correlation of *TV411* video, print, and online materials to the Tests of Adult Basic Education (TABE), Form 7. The TABE is widely used in adult education for student assessment and to prescribe specific areas for skill development.

By administering the TABE to learners, adult educators obtain information about the mastery of skills generally learned in grades 1–12. TABE results also provide information about percentile rank and grade equivalency.

## About *TV411*

*TV411* consists of multimedia learning materials that embed literacy lessons in everyday adult contexts. For example, with *TV411*, learners practice subject-verb agreement and proper punctuation so that their cover letters make the right impression. Similarly, knowing how to convert a percent into a decimal becomes a tool for understanding interest rates, calculating sale prices, and tracking spending.

Since *TV411* uses activities that are relevant to adults to promote literacy, the ideas and skills covered in the video programs, print, and online materials motivate learners to develop reading, mathematics, language, and writing skills that will help them succeed in their day-to-day lives. Many of these same skills are used on the TABE to measure academic ability and achievement.

This correlation highlights the TABE, Form 7 objectives that align with *TV411*. It relates TABE objectives to segments of the *TV411* curriculum that either teach or model the skill.

## About the Correlation of TV411 to TABE 7

This correlation is based on two of the five levels that the TABE uses to assess the reading, mathematics, language and spelling skills of adults—Level M (Grades 3.6–6.9) and Level D (Grades 6.6–8.9). These two levels of TABE most closely correspond to the educational level of the target audience for TV411.

TABE Objective	Level M Questions	Level D Questions	TV411 Video Episode: Segment	TV411 In Print Issue: Page Number	TV411 On Line: TOPIC: Lesson
forms	36, 37, 38, 39, 40	30, 32, 33, 34	3: <i>Personal Portfolio</i> 13: <i>Laverne, Lifelines, &amp; Street Beat</i> 17: <i>Lifelines</i>	1: p. 2 3: pp. 2–3 4: p. 8 5: p. 3 6: pp. 2–3 12: pp. 2–5 26: pp. 5–6 30: p. 3	WRITING: <i>Filling Out a Job Application</i> MATH: <i>Keeping the Books</i>

An excerpt from the correlation is shown here.

- The first three (shaded) columns of the correlation display selected TABE objectives and the corresponding question numbers for Levels M and D.
  - In this example, the TABE objective *forms* is tested by Questions 36–40 on TABE 7, Level M and by Questions 30 & 32–34 on TABE 7, Level D.
- The final three columns explain where learners can find real-life usage and everyday application of the TABE objectives in the TV411 materials. In this example:
  - the **video correlations** are in the format *Episode: Segment*, so *3: Personal Portfolio* means *Episode 3 Personal Portfolio* segment.
  - the **workbook correlations** are in the format *Issue: Page Number* so *1: p. 2* means *Issue 1, page 2*.
  - the **online correlations** are in the format *Topic: Lesson*. Therefore, *WRITING: Filling Out a Job Application* indicates that at [www.tv411.org](http://www.tv411.org), the learner can choose *Writing* and then click on the *Filling Out a Job Application* lesson.

# TV411 Instructional Programs

The first three seasons of **TV411** consist of:

- **30 video programs** that use a variety of characters, both fictional and real, to help learners improve their reading, mathematics, language, and writing skills. The video programs for the first three seasons are numbered 1–30.
- **30 workbooks**, also numbered 1–30, containing lessons that correspond to or extend the video programs. These magazine-style workbooks can be used on their own or to reinforce the skills that have been covered in the corresponding video program. The workbooks feature practical activities, such as filling out an application or reading a mortgage chart. These lessons not only teach reading, mathematics, language, and writing skills, but they also prepare learners to succeed in day-to-day life.
- **an interactive web site** at [www.tv411.org](http://www.tv411.org). This easy-to-navigate Web site features correlated lessons in the areas of reading, writing, vocabulary, math, and learning that guide the learner with frequent and instructive feedback.
